Resolved Support Calls and General Recommendations	7

History

Revision	Update Information
1.0	Initial Release

Product Codes

Product Code	Product Type	Product Description
MC6CVW-U1	Base Product	CATIA 3DEXPERIENCE to Creo View (uni-directional)
MC6CVW-A1	Optional add-on	CATIA 3DEXPERIENCE to Creo View (uni-directional) Model Based Definition (3D Dimensions & Annotations)

Supported Application Revisions

The following application revisions have been qualified with this release

Application	Revision
CATIA V6*	CATIA V6R2013x 3DEXPERIENCE R2015x 3DEXPERIENCE R2017x

*NOTE: This product is only supported with Windchill from R2017x. For further information, please contact your PTC representative

Supporting API's

The following supporting API support is used

Application	Revision
Dassault Multi-CAD	CATIA V6R2013x 3DEXPERIENCE R2015x 3DEXPERIENCE R2017x
Creo View DAPI	Creo 4.1 – F000 (14.1.0.19)

Supported Operating Systems

The following operating systems have been qualified with this release

Operating System	Qualification Status
Windows 7 64bit	Qualified and fully supported
Windows 10	Qualified and fully supported

Distribution Media

CD images of the latest release are available from the following download sites.

Product	URL for CD image download
All Versions	CAD_20.2_MC6CVW_WIN.02.msi

Related software can also be found below.

Product	URL for CD image download
Flex License Server*	CAD_FLEXLM_11.14_WIN.01.msi

- At this revision if you already have a Theorem FlexLM server, then it is not necessary to upgrade to this newer server, however it is recommended as future products may only work with this server in place.

Installation documentation can be found [here](#)

New Features / Enhancements

The following new features or enhancements have been introduced with this release

Ref ID New Feature / Enhancement Description

1	Support for 3DEXPERIENCE R2017x with Windchill
2	<i>Large Assembly Processing</i> An early release of code for large assembly processing is included with this release. This is intended for pre-production testing and comment. It has been tested on the command line, interactively and in PLMBatch. NOTE: Documentation is available separately for this capability
	<i>Batch processing</i> An early release of code for batch processing via the command line is included with this release. This is intended for pre-production testing and comment.

Known Limitations and Restrictions

The following limitations and restrictions have been identified during final testing prior to release

Ref ID	Limitations and Restrictions
1	<i>Minimum Application level:</i> There are a number of issues related to lower Fix Pack levels of a users installation. V6R2013x HF83 and V6R2015x FP1624, is recommended for this release of CATIA 3DEXPERIENCE Products
2	<i>Unified Interface:</i> The UI is not integrated at this release
3	<i>Batch Processing:</i> The ability to provide full Batch processing support via the command line and the UI is implemented for jt export only.
4	<i>Automated Processing:</i> There is no Automated / TPM capability for this release
5	From 3DEXperience 2017X, this product is planned to be supported by Windchill (11.0 M030 CPS06 & 11.1 F000). Please contact your PTC representatives for further details

Resolved Support Calls and General Recommendations

The following list of Support Calls are resolved with this release

Support Call ID	Brief Description

Recommendations
