## Contents

Document History .....	2
Product Codes .....	3
Supported Application Revisions .....	4
Supporting APIs .....	4
Supported Operating Systems .....	4
Distribution Media .....	4
Related Distribution Media .....	4
License Server Update - Important Note .....	5
New Features / Enhancements .....	5
Known Limitations and Restrictions.....	6
Resolved Support Calls .....	7

## Document History

Revision	Update Information
1.0	Initial Release

## Product Codes

<b>Product Code</b>	<b>Product Type</b>	<b>Product Description</b>
<b>JTC5C-U1</b>	Base Product	JT to CATIA Composer JT (uni-directional)
<b>JTC5C-U2</b>	Base Product	JT to CATIA Composer Sync (uni-directional)
<b>JTC5C-U3</b>	Base Product	JT to CATIA Composer Enterprise Sync (uni-directional)

## Supported Application Revisions

The following application revisions have been qualified with this release

Application	Revision
<b>CATIA Composer (JTC5C)</b>	All revisions up to and including r2021

## Supporting APIs

The following API support is used

Application	Revision
<b>CATIA Composer</b>	R2021
<b>JTOpen Libraries</b>	JT Toolkit version 10.2.0.0

## Supported Operating Systems

The following operating systems have been qualified with this release

Operating System	Qualification Status
<b>Windows 10 64-bit</b>	Qualified and fully supported
<b>Windows 8 64-bit</b>	Qualified and fully supported
<b>Windows 7 64-bit</b>	Qualified and fully supported

## Distribution Media

CD images of the latest release are available from the following download sites.

Product	URL for CD image download
<b>CATIA Composer</b>	<a href="#">CAD 23.2 JTC5C WIN.01.msi</a>

## Related Distribution Media

In addition to the translator software itself, there is also another related media distribution available. This contains the Theorem License Manager which is installed on the nominated license server(s) and manages the user access to the purchased volume of concurrent Theorem application licenses.

# PRODUCT RELEASE ANNOUNCEMENT

Related Package	URL for CD image download
Theorem License Manager	<a href="https://s3-eu-west-1.amazonaws.com/theorem.software/LicenseManager/CAD_FLEXLM_11.17_WIN.01.msi">https://s3-eu-west-1.amazonaws.com/theorem.software/LicenseManager/CAD_FLEXLM_11.17_WIN.01.msi</a>

## License Server Update - Important Note

If you have previously installed an earlier release of the JT to CATIA Composer, and therefore have an existing installation of the Theorem License Server. Then you must update the license server to the latest release. Theorem License Server installations will fail to manage licenses linked to the latest release of the JT to CATIA Composer translator.

## New Features / Enhancements

The following new features or enhancements have been introduced with this release

Ref ID	New Feature / Enhancement Description
1	Supports CATIA Composer 2021
2	
3	

## Known Limitations and Restrictions

The following limitations and restrictions have been identified during final testing prior to release

<b>Ref ID</b>	<b>Limitations and Restrictions</b>
---------------	-------------------------------------

<b>1</b>	When using this version of the translator with versions of CATIA Composer lower than 2020 a message is displayed when opening the output indicating that the file has been created from a higher release. Tests performed with CATIA Composer 2018 and CAT Composer 2017x have indicated that although the message is displayed the files are able to be accessed successfully. However, there is no guarantee that this will occur in all circumstances. Therefore, it is recommended that the version of CATIA Composer should be version 2020 or higher.
<b>2</b>	Older installations of the Theorem License Server are not compatible with this release of the JT to CATIA Composer code. Therefore the old license server installation must be updated to the latest version shown in the Related Distribution Media section of this document.
