Known Limitations and Restrictions

The following limitations and restrictions have been identified during final testing prior to release

JT to 3DPDF

Ref ID	Limitations and Restrictions
1	Users who have a .01 msi installation and have the error shown below need to modify their installation to include Visual C++ 2013 Runtime. Alternatively, download the .02 msi from this document and install.
2	A current limitation of the .msi installation method is that the software cannot be installed directly on to external based mapped or network drives from a client machine. For guidance on how to do this, please find the documentation here
3	The .02 release of this product still states Version 23.0.001 in the header of log files and Command Line output.

4	PMI Flipping: PDF does not support flipped PMI
5	PDF Default View: If a default view is set within the CAD then the *Shaded* render mode is not supported when the PDF opens.
6	When using the new feature for Korean text support, it may be necessary to change the machine language to Korean when using the %TS_KOREAN% variable.
