## PRODUCT RELEASE ANNOUNCEMENT

---

### Distribution Media

Msi packages of the latest release are available from the following download site.

**NOTE!** It is important that you install the latest Flex License Server 11.19 from the link below. The product will not work correctly with older versions of Flex such as 11.14

| Product                  | URL for msi downloads                         |
|--------------------------|---|
| Support for ALL Versions | <a href="#">NXSDB Product Installer</a>       |
|                          | <a href="#">Flex License Server Installer</a> |
|                          | <a href="#">Theorem UI Installer</a>          |

## PRODUCT RELEASE ANNOUNCEMENT

---

### New Features / Enhancements

The following new features or enhancements have been introduced with this release.

| Ref ID | New Feature / Enhancement Description |
|--------|---------------------------------------|
|--------|---------------------------------------|

|   |                               |
|---|-------------------------------|
| 1 | Support for NX2206,2212 added |
|---|-------------------------------|

## Known Limitations and Restrictions

The following limitations and restrictions have been identified during final testing prior to release.

| Ref ID | Limitations and Restrictions   |
|--------|--|
| 1      | Only single configurations can currently be used interactively in ICEM Surf. To choose a new configuration ICEM Surf must be closed and a new configuration added via the kddat files. |
| 2      |  |

## Resolved Support Calls

The following list of Support Calls are resolved with this release.

| Support | Brief Description Call ID |
|---------|---------------------------|
|         |                           |
